

Get the most from your marketing spend by opting for a mix of online and print advertising

Advertise online on nanotechweb.org and through the journal pages on iopscience.org, and in the pages of Nanotechnology itself. By tailoring your advertising in this way, you will be reaching a truly global, engaged audience of top academics and researchers in the world's leading industrial and government institutions.

Nanotechnology

Nanotechnology

Nanotechnology publishes papers at the forefront of nanoscale science and technology, especially those of an interdisciplinary nature, and encompasses the understanding of the fundamental physics, chemistry, biology and technology of nanometre-scale objects.

You can opt for either a full-page or half-horizontal advert and be sure that your message is read in the world's leading institutions. Copies of both the journal and the Nanotechnology Highlights magazine – a collection of the year's most cited, read and innovative papers – will also be distributed at key events in 2012.

Conference and show calendar 2012

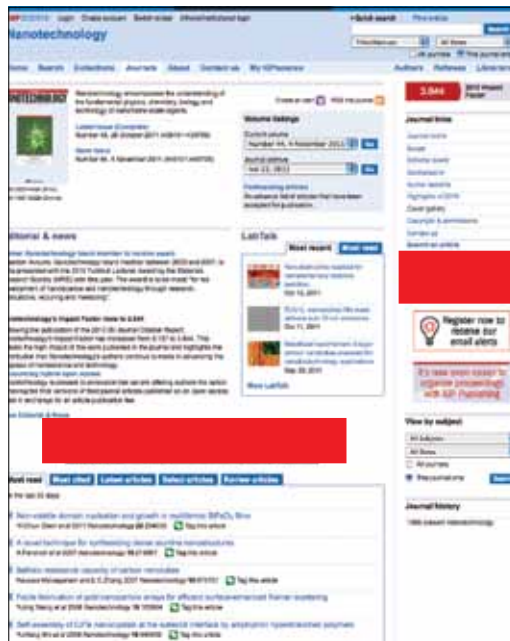

Show	Date
Photonics West, US	21–26 January
BIOSTEC 2012, Portugal	1–4 February
APS March Meeting, US	27 February – 2 March
IEEE-NEMS 2012, Japan	5–8 March
DPG Spring Meeting – Hadronic & Nuclear Physics, Germany	20–22 March

Nanotechnology on iopscience.org

Nanotechnology on iopscience.org

iopscience.org is IOP Publishing's website for journal content. All of *Nanotechnology's* papers are published online and banner advertising is available. *Nanotechnology* is the only journal in this field to offer free access to all of its papers for the first 30 days of publication, allowing subscribers and non-subscribers to access content. This ensures your advertising message is seen by a large and highly targeted audience.

*Publisher's own data, September 2011.

Nanotechnology is accessed by more than 2500 institutions worldwide

*Publisher's own data, September 2011.

More than
1.5 million*
article downloads annually

*Publisher's own data, October 2010 – September 2011.

The screenshot shows the nanotechweb.org website. At the top, there is a navigation bar with links for Home, News, Journal, Multimedia, Events, Buyer's guide, White papers, Jobs, Links, Blog, and Contact us. Below the navigation bar, there are several sections:

- LATEST VIDEOS:** Includes articles like "Asylum Research Mar 4, 2010 Introducing the Cypher Atomic Force Microscope - the World's Highest Resolution AFM" and "EV Group (EVG) Mar 3, 2010 Solutions for 3D Integration and TSV (Through Silicon Via)".
- WEBINARS:** Features a webinar titled "Navigated Atomic Force Microscopy with N8 NEOS Sep 15, 2010" with an image of a microscope.
- NANO HIGHLIGHTS:** Promotes downloading a free copy of "NANOTECHNOLOGY".
- EDDY PROHD:** A section for a new technique in virus titration and protein aggregation assessment, dated Apr 8, 2010.

The bottom of the page features a large graphic with the text "ENERGY AT THE NANOSCALE" and "Visit our new section today".

A webinar generates targeted and active leads for your product and service. Your company will benefit from a bespoke, real-time, interactive presentation direct to potential customers. This high-visibility package includes:

Before the webinar

- bespoke marketing activities, including multiple e-shot promotions;
- a dedicated technical and marketing team available for consultation;
- hyperlinked banners on nanotechweb.org;
- a bespoke registration form to capture qualifying information for your sales team.

During and after the webinar

- a six-month hosting period to continuously generate leads;
- customized reporting on audience demographics, traffic, questions asked;
- before the webinar expires you will be able to extend your presence for another six months or to buy the rights to the webinar to use for your own promotion.

“In an independent survey conducted by The Microscopy & Imaging Place, Inc (The MIP) entitled ‘First International AFM Market Study’, the results showed that nanotechweb.org was the most routinely visited website above all other nanotechnology sites.”

The screenshot shows the nanotechweb.org website. The main content area features a video player for an Asylum Research Cypher Atomic Force Microscope. The video player has a play button and a progress bar. Below the video player, there is a quote: "Cypher is by far the best, most stable and most configurable AFM I have ever used." Andras Kis, EPFL, Switzerland. To the right of the video player, there is a vertical banner with the text "ENERGY AT THE NANOSCALE" and "Visit our new".

Corporate video

Make a direct connection with your target customers with the latest video advertising opportunities from nanotechweb.org. Our full-service video package makes it easy and affordable for businesses of all sizes to exploit this powerful marketing tool. You will benefit from:

- a professional filming and editing service to create a 3–5 minute video hosted on nanotechweb.org;
- marketing to our extensive global audience of science and industry professionals;
- a copy of the video for your own marketing promotions.

Video hosting

During the hosting period, your corporate video will be available to view by nanotechweb.org's more than 28 600 unique visitors a month.

Video sponsor

By sponsoring our high-quality video series, you can ensure that your priority marketing message is closer to the action as our readers watch, listen and learn from the people redefining the future of physics.

Your company will receive:

- your corporate logo/banner displayed alongside the video;
- promotion of your sponsorship to our extensive global audience of industry professionals;
- a link to the video page for your own marketing promotions.

Key supplier status

Create a high-impact microsite with the nanotechweb.org team and benefit from:

- a targeted audience – your company logo displayed next to relevant articles throughout the site, including the homepage;
- a premium position on the homepage and throughout the site;
- enhanced site search – your microsite at the top of company searches;
- improved impact with animated images;
- lead capture with up to 20 downloadable pages and a “Request info” button;
- a newswire link for the first week of the programme and regular rotation within weekly news alerts throughout the year;
- statistics on views and impressions;
- updates carried out by your dedicated microsite manager;
- four star products.

“AIXTRON is using the nanotechweb platform and journal to promote its products because it addresses a wide community. In the emerging nanomaterials market, staying in touch with researchers and manufacturers is crucial for us.”

Octavia Deufel, Marketing Communications, AIXTRON AG

Corporate partner

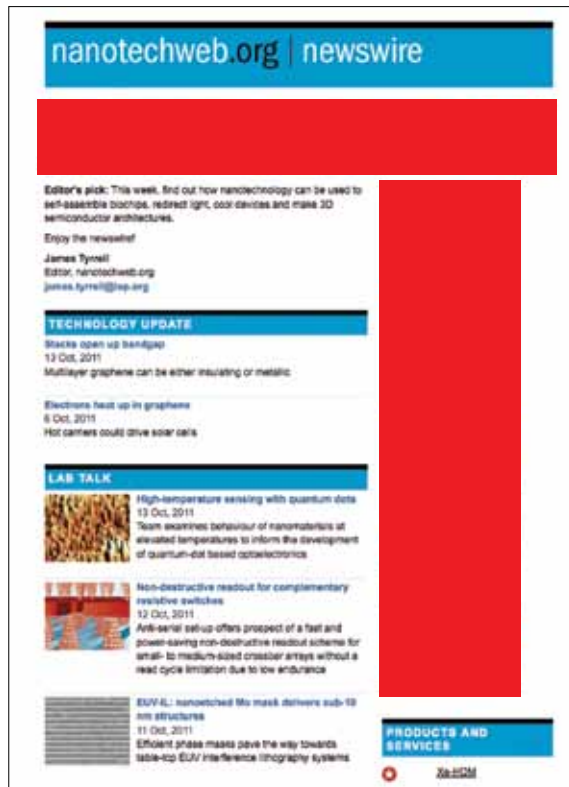

Corporate partnership offers the following benefits:

- a targeted audience – your company logo displayed next to relevant articles throughout the site, including the homepage;
- an opportunity to drive traffic – your logo is hyperlinked directly to your company website;
- statistics on views and impressions;
- a priority position in the Buyer's guide for the duration of the programme, plus an enhanced listing with hyperlinked logo;
- direct reach – goes straight to more than 24 500 opted-in newswire subscribers;
- two star products.

“As a corporate partner, we have found nanotechweb very beneficial in increasing the visibility of our products in the research community.”

Peter Samsel, CEO, Harrick Plasma

Newswire sponsorship

E-mail sponsorship provides the ideal platform for you to combine brand awareness with timeliness. The weekly *Nanotechnology* newswire is read by more than 24 600 opted-in subscribers. It provides them with a round-up of key news stories from nanotechweb.org, information about the latest products and companies, and upcoming worldwide events.

Banners

Three sponsorship banner positions are available – top-level, skyscraper and a third banner that sits at the foot of the newswire. Statistics on views and impressions are provided.

Newswire advert specifications

	Dimensions (pixels)	Max. file size GIF, JPG (KB)
Top-level banner	600 × 75	20
Skyscraper banner	160 × 600	20
Third banner	600 × 75	20

White papers Star products

White papers

Take advantage of nanotechweb.org's impressive traffic to promote your research and technical papers, and benefit from:

- leads sent to you on a monthly basis;
- a hyperlink direct to your website;
- inclusion in the newswire, delivered weekly to more than 24 600 opted-in subscribers.

Star products

Benefit from a six-month priority listing in our Buyer's guide. Star products increase visibility and create leads.

You will also receive:

- a "Request info" button providing direct leads;
- statistics on views and click-throughs;
- inclusion in one newswire, delivered weekly to more than 24 600 opted-in subscribers;
- targeted promotion alongside related editorial content.

Comparison of listing types*

	Page views	Unique page views	Click-throughs

Banners

The different formats of display advertising across nanotechweb.org allow for flexibility in design and targeting when reaching your audience.

Top-level banner

Ideal for both branding and direct-response campaigns.

- Takes pride of place at the top of the page
- Site-wide exposure, offering extremely high visibility and click-through rates
- Banners are hyperlinked, redirecting to your corporate site
- Can be animated or static and can be set to reach your target audience
- Monthly statistics are provided, offering you accountability for your marketing spend

Square banner

- Site-wide exposure, offering extremely high visibility and click-through rates
- Banners are hyperlinked so you can direct customers to a page of your choice
- Can be animated or static
- Monthly statistics on impressions and click-throughs

Skyscraper

A high-impact location on the homepage and alongside high-quality editorial throughout the site.

- Offers more space to get your corporate or product message across
- Can be animated or static
- Target your banners for specific marketing activities or time zones
- Monthly statistics supplied for added accountability

Product category sponsor

Sponsor a category in our Buyer's guide to target relevant users.

- Your banner displayed next to relevant search category for a month
- Sponsor listing in weekly newswire
- Monthly statistics on impressions and click-throughs
- Banner hyperlinked to your website

Banners

The screenshot shows the nanotechweb.org homepage. At the top, there is a navigation bar with links for Home, News, Journal, Multimedia, Events, Buyer's guide, White papers, Jobs, Links, Blog, and Contact us. Below this, there are several sections: 'LATEST NEWS ARTICLES', 'TECHNOLOGY UPDATE', 'RELATED STORIES', 'RELATED LINKS', 'RESTRICTED LINKS', and 'RELATED PRODUCTS'. A prominent red box highlights a 'Message placement unit (MPU)' for RIXTRON. The MPU contains the RIXTRON logo, the text '...and graphene.', and a call to action: 'Click here for more information and registration'. Below the MPU, there is a 'HIGHLIGHTS 2009' section and a 'KEY SUPPLIERS' section featuring 'Piezo Ceramic Motors'.

Message placement unit (MPU)

The MPU appears in every editorial article and also some archive pages.

- Very popular format due to strong performance
- Banner hyperlinked to your website
- Monthly statistics on impressions and click-throughs

Community sponsor

Choose from one of our three community channels – scanning probe microscopy, cleantech or LEDs.

- Prime position
- Company logo and text, which you can change as and when required
- Update users about your company, products or events

The screenshot shows the nanotechweb.org homepage with a different MPU. The MPU is for 'Physica.SPb' and is located in the 'SCANNING PROBE MICROSCOPY' section. It features the Physica.SPb logo, the text 'Oct. 27-28, 2010 Saint-Petersburg, Russia', and a call to action: 'Click here for more information and registration'. Below the MPU, there is a 'TECHNOLOGY UPDATE' section, a 'PRODUCTS & SERVICES' section, and a 'HIGHLIGHTS 2009' section. The 'PRODUCTS & SERVICES' section lists various products and services, including 'Nanonics' MultiView 4000TM MultiProbe SPM System' and 'eLockin - a quad-channel lock-in amplifier series'.

Recruitment advertising

All recruitment advertising is posted on brightrecruits.com – the international jobs site for physics and engineering. brightrecruits.com connects employers with graduates and industry professionals who have qualifications and experience in physics. These analytical, numerate and adaptable candidates have the skills to work in a variety of sectors, from academia and research to finance.

brightrecruits.com has a dedicated nanotechnology specialism, making it even easier for potential candidates to find your job.

Advertising options include:

- Standard job posting
- Job of the week
- Featured job
- Banner advertising
- Featured recruiter
- Career videos

Mechanical data

Online

General specifications

All banners and logos must be supplied as GIF, JPEG or Flash adverts with “alt” text and a URL to which to link the banner or logo.

Animation specifications

GIF/Flash animations must:

- be no longer than 15 seconds;
- loop through a sequence of frames three times maximum.

The following specifications apply to Flash adverts:

- an alternative GIF or JPEG image file must be provided as a degradation option for browsers that do not support Flash;
- subsequent downloading is not permitted;
- expansion is not permitted;
- any audio included may only play when initiated by the user;
- adverts must have a solid

background colour (i.e. not transparent);

- advertisers must warrant that they have tested adverts for technical stability on Internet Explorer, Firefox, Opera and Safari browsers prior to supply. Stability is defined as not causing error messages, dialogue windows, excessive CPU usage, browser crashes or system crashes.
