

A LETTERS JOURNAL EXPLORING  
THE FRONTIERS OF PHYSICS

**Publish your Quantum  
Simulators Letter in EPL**

[www.epljournal.org](http://www.epljournal.org)

[www.epljournal.org](http://www.epljournal.org)

Led by its own Co-Editor  
**Professor Maciej Lewenstein** (Institut de Ciències Fotòniques, Spain), EPL regularly publishes high-quality quantum simulator letters throughout the year.

**IMPACT FACTOR**  
**2.753\***

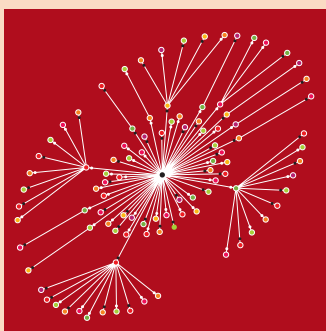

\* As listed in the ISI® 2010 Science Citation Index Journal Citation Reports

**30 DAYS**

Average accept to online publication in 2010

**16 961**

citations in 2010  
37% increase from 2007

## Publish your Quantum Simulators Letter in EPL

A leading international journal, EPL (*Europhysics Letters*) publishes Letters on cutting-edge research from across the whole of physics.

Key focus topics for EPL include quantum information, processing and communication areas, and the journal publishes Letters on many aspects of this field, including:

- information, entanglement, polarisation, qubits, quantum dots
- computation, communication and cryptography
- quantum simulators, ultracold atoms, trapped ions, quantum gases in optical lattices
- topological superfluids, frustrated magnetism, unconventional phase transitions

If you are working on research in any of these areas, the Co-Editors would be delighted to receive your submission. Articles should be submitted via the automated manuscript system at [www.epletters.net](http://www.epletters.net).

## Six good reasons to publish with EPL

We want to work with you to help you gain recognition for your high-quality work through worldwide visibility and high citations.

**As an EPL author you will benefit from:**

- 1 Quality** – The 40+ Co-Editors, who are experts in their fields, oversee the entire peer-review process, from selection of the referees to making all final acceptance decisions
- 2 Impact Factor** – The 2010 Impact Factor is 2.753; your work will be in the right place to be cited by your peers
- 3 Speed of processing** – We aim to provide you with a quick and efficient service; the median time from acceptance to online publication is 30 days
- 4 High visibility** – All articles are free to read for 30 days from online publication
- 5 International reach** – 1 200 top-ranking institutions subscribe to EPL, enabling your work to be read by your peers in over 90 countries
- 6 Open access** – Articles are offered open access for a one-off author payment

## Any questions?

If you would like further information about our author service or EPL in general, please visit [www.epljournal.org](http://www.epljournal.org) or e-mail us at [info@epljournal.org](mailto:info@epljournal.org)
